DETAILED ACTION

Applicants have cancelled claims 17-20, 22, 23, 25 and 27-30 in an amendment filed on November 5, 2007. The claims 1-15 are considered allowable.

Reasons for Allowance

The following is an examiner's statement of reasons for allowance:

The invention relates to a process for preparing a pharmaceutically acceptable salt of perindopril of formula (I) from a protected precursor compound of formula (II)

wherein R

represents a carboxyl protecting group, which process comprises subjecting a compound of formula (II) to deprotection of the carboxylic group COOR attached to the heterocyclic ring so as to yield the corresponding free acid, which deprotection is carried out in the presence of a base which forms a pharmaceutically acceptable salt with said free acid formed by said deprotection. The closest prior art is Vincent, et al. (US 4,914,214). The process for preparing a pharmaceutically acceptable salt of perindopril of formula I from a protected precursor compound of formula (II) wherein deprotection is carried out in the presence of a base which forms a pharmaceutically acceptable salt with said free acid is neither taught nor suggested by the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
